LETTER OF RECOMMENDATION

I am pleased to introduce my student Kunal Vichave, Roll No. 220600477. He has been with this university for the past three years while studying for his Bachelor of Engineering in Computer Science, focusing on Artificial Intelligence and Machine Learning. Now, he wants to continue his studies abroad to gain broader exposure and improve his learning at your prestigious university.

In my interactions with him, I found Kunal to be an attentive, motivated, and enthusiastic learner. He consistently maintains a positive attitude. His strong academic performance comes from his hard work, sharp intellect, and commitment to excellence. His overall academic results reflect his discipline, perseverance, and passion for his field.

Outside of academics, Kunal has shown remarkable creativity and problem-solving skills. Under my guidance, he and his team completed an impressive final year project that won 2nd place in a department-level competition. This project showcased his innovative thinking, technical skills, and ability to work well with his peers to achieve great results.

He has also taken part in extracurricular and academic activities, demonstrating outstanding communication and organizational skills. Considering his overall performance, achievements, and dedication, I confidently place him among the top 5% of his class of 60 students.

I truly believe that Kunal has great research potential and would excel as a graduate student. I strongly recommend him for admission to your university and urge you to consider him for academic and financial assistance.
